This diagram shows an exploded perspective view of a container assembly. The main component is a container body (410) with a top rim (414) and a side wall (416). A lid (472) is shown being placed onto the container. The lid has a central opening (480) and a flange (496). A gasket (494) is positioned between the lid and the container body. A cap (500) is shown being placed onto the gasket. A tube (490) is shown being inserted into the central opening of the lid. A small component (486) is shown being inserted into the container body. A label (419) is shown being attached to the side wall of the container. A bottom flange (417) is shown at the base of the container. A bottom flange (498) is shown at the base of the lid. A bottom flange (502) is shown at the base of the container body.
